Digital advertising and monetization professional spanning agency media strategy, client-side agency management, and gaming publisher monetization at Microsoft/Xbox. Drives revenue growth through partner management, campaign optimization, and technical problem-solving.

EXPERIENCE

Microsoft / Xbox | Monetization Ad Operations Manager

May 2019 - Present

- Drove 5-10% year-over-year ad revenue growth through new ad sizes and optimized ad timing, contributing to a record of sustained annual growth without declines.
- Lead mobile monetization, partnering with King to optimize ad performance and drive revenue growth.
- Serve as the primary contact for SSP partners, leading onboarding, performance optimization, and issue resolution across Windows and mobile games.
- Set up campaigns in Xandr, monitor performance, and troubleshoot performance and ad delivery issues.
- Coordinate SDK onboarding, integration testing, and launches with engineering and external partners; develop documentation and processes to streamline delivery and improve ad reliability.
- Partner cross-functionally with Data Analytics, Sales, and Engineering to align monetization initiatives with business goals; use AI-assisted troubleshooting to accelerate issue resolution and reduce engineering escalations.

T-Mobile | Marketing Media Manager

Bellevue, WA | May 2016 - Feb. 2018

- Managed the media agency relationship and partnered on a nearly $1B media budget, aligning investment and campaign execution with customer acquisition, retention, and brand objectives.
- Led media strategies for offers, events, OEM launches, and brand awareness to support customer retention and acquisition.
- Partnered with social platforms, agencies, and content teams to align media plans with business objectives; drove lead-generation innovation through multivariate A/B testing and Facebook Messenger.

Initiative | Digital Strategy Supervisor

Chicago, IL | June 2015 - May 2016 | Clients: MFS Investment Management & Aramark

- Developed annual media strategies for clients with budgets exceeding $20M; increased cost efficiency by 30% through programmatic video and display.
- Led dedicated and cross-functional teams and monitored performance across publishers, DSPs, and SEM teams to deliver campaigns and projects.

Neo@Ogilvy | Digital Media Supervisor

New York, NY & Chicago, IL | Feb. 2013 - June 2015 | Clients: IBM & CDW

- Increased CTR by 20% through A/B testing of targeted audience campaigns; managed relationships with more than 50 media vendors.
- Planned and executed paid social, programmatic, and real-time bidding campaigns across sales, brand, and promotional initiatives.

PHD, Omnicom Media Group | Asst. Integrated Media Strategist

New York, NY | March 2012 - Feb. 2013 | Client: Vonage

- Conducted A/B testing to improve ROI for Hispanic and Asian audience campaigns and aligned SEM strategies with display opportunities.
